✉ bsamtani20@gmail.com ☎ +15624495612 💻 www.linkedin.com/in/bhavyasamtani 🌐 github.com/bhavyasamtani 📍 Long Beach, CA

Education

California State University, Long Beach Aug 2024 – May 2026 | Long Beach
Master Of Science in Information Systems

Manav Rachna College Of Engineering, Faridabad Aug 2014 – May 2018 | India
Bachelors Of Technology, Information Technology

Skills

Programming & Analytics: SQL (Advanced), Python, R, Feature Engineering, Model Evaluation

Machine Learning & AI: Supervised & Unsupervised Learning, NLP (TF-IDF, Vectorization, Tokenization), XGBoost, Neural Networks, LLMs

Frameworks & Libraries: Pandas, NumPy, Scikit-learn, PyTorch, TensorFlow, SHAP

Data Visualization: Power BI, Tableau, Excel (Pivot Tables, Power Query, VBA), Streamlit

Data Engineering: ETL Pipelines, Data Validation, Data Warehousing, PostgreSQL, MySQL, AWS, Databricks, Supabase

Tools & Collaboration: Git, GitHub, Jira, Azure DevOps, Linux/Unix, Agile/Scrum, Figma, Miro

Professional Experience

California State University Feb 2025 – present | Long Beach
Data Analyst SA

- Extracted, cleaned, and analyzed operational datasets using SQL and Excel to deliver accurate KPI reporting and support data-driven departmental decisions.
- Designed and automated Power BI dashboards for budget, billing, and performance metrics, reducing reporting turnaround time by 30%.
- Collaborated with the Director of Operations to identify data trends, optimize workflows, and improve resource utilization.

Tata Consultancy Services May 2022 – Jul 2024 | Hyderabad
Systems Engineer

- Led end-to-end data migration and analytics initiatives using SQL, Python, and ETL pipelines to automate TLM reconciliations and reporting.
- Developed Power BI dashboards visualizing KPIs, automating insights delivery, and cutting manual effort by 35%.
- Collaborated with global stakeholders across SIT, UAT, and production to improve data integrity, validation speed, and cross-team delivery.

Nomura Services Pvt. Ltd Jun 2021 – May 2022 | Mumbai
Technical Analyst

- Migrated reconciliations from TLM 2.7 to 3.0, validating high volume datasets to enhance reporting accuracy and reduce operational errors by 25%.
- Designed forecasting-based test cases achieving 92% data match accuracy, strengthening validation of reconciliation and reporting workflows.
- Analyzed reconciliation datasets, automated SQL/Excel reports, and generated actionable insights to support trading and risk analytics teams.

Smart Stream Technologies Dec 2019 – Jun 2021 | Bangalore
Solutions Developer

- Executed complex SQL queries and Python scripts within the TLM platform to validate data accuracy, integrity, and pipeline performance.
- Automated reconciliation and ETL workflows using Unix based scripting, improving data throughput and reducing manual workload by 40%.
- Delivered KPI and trend reports analyzing process efficiency and compliance metrics for stakeholders.

Projects

Job Mirror - Fake Job Detection Sep 2025 – Dec 2025
• Built an end-to-end ML-based job fraud detection system using NLP preprocessing, XGBoost modeling, and Streamlit UI; improved classification performance through feature engineering and model tuning.

Netflix Global Hits Analysis Aug 2025 – Sep 2025
• Analyzed Netflix Global Top 10 dataset to identify viewership trends using Python (Pandas) and Power BI; discovered dominance of longer, English-language TV series and translated insights into interactive dashboards.

Liver Disease Prediction Jan 2025 – May 2025
• Built and optimized ML models (Logistic Regression, Random Forest, XGBoost, SVM) using EDA, feature engineering, and performance evaluation to improve predictive accuracy on healthcare data.

Mental Wellness Support System (MWSS) Feb 2025 – May 2025
• Designed a 21-table Oracle SQL database schema with role-based access control, complex joins, and KPI reporting to support therapy scheduling and payments.

Moodify Mar 2025 – May 2025
• Led a 4-member team to design and deliver a user-centric Spotify prototype for mood-based playlist recommendations using a 5-day design sprint.
